#1 Strategic AI

The Heart of Intelligent Decision-Making

At its core, Hanna Prodigy is a sophisticated chatbot trained in **Enterprise Agility** and **advanced business models**. What sets Hanna apart is its **multi-level learning capability**. Teach Hanna Prodigy at company level, team level or even for individual use to ensure that the AI's knowledge is perfectly aligned with the structure and needs of your business.

Imagine having an AI assistant that understands the specific goals, challenges, and culture of your organization. Whether you're an executive looking at the big picture or a team leader focused on specific initiatives, Hanna provides you with tailored, strategic insights that support your decision-making process.

Situation

“A global manufacturing company struggled to make consistent strategic decisions across its diverse regional offices”

How Hanna Prodigy helped solve it

Hanna Prodigy's multi-level learning capability enabled our client to train the AI at both corporate and team level. This ensured that all decision makers had access to AI-powered insights that were aligned with both global strategy and local specifics.

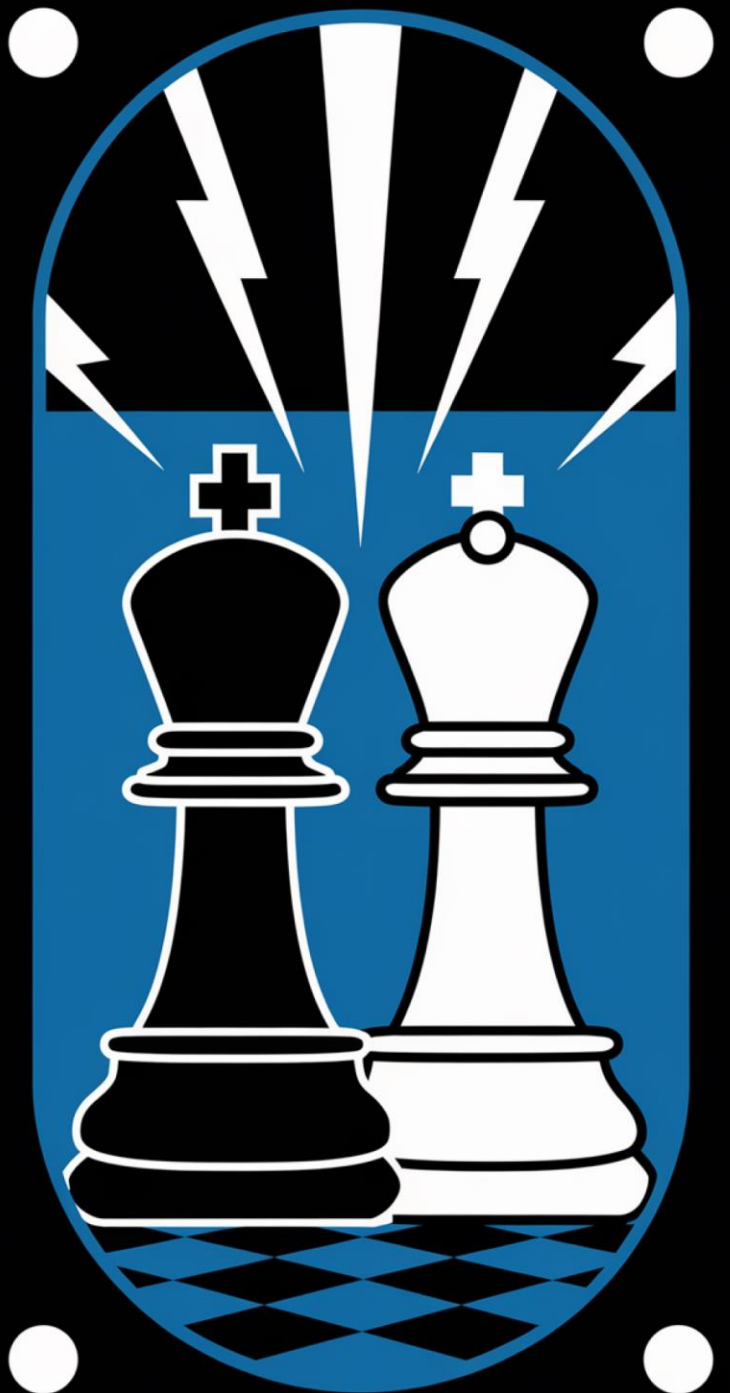

#2 Regulations and Strategic Alignment

Ensuring Compliance at Lightning Speed

In today's complex regulatory environment, staying compliant is crucial but often time-consuming. Hanna Prodigy's Regulations and **Strategic Alignment module** transforms this process. It allows you to input your company's rules, industry regulations, and guidelines into the platform.

Once set up, you can check any proposal or strategy against these rules in seconds. What might have taken days of manual review can now be accomplished almost instantly. This not only saves time but also significantly reduces the risk of non-compliance or misalignment with company goals and strategy.

Situation

“A financial services firm was spending weeks manually reviewing new product proposals for regulatory compliance”

How Hanna Prodigy helped solve it

By inputting all relevant regulations into Hanna Prodigy, our client reduced compliance review time from weeks to minutes. This allowed them to bring new products to market faster while maintaining strict regulatory adherence.

#3 Strategic AI in Action

Turning Conversations into Action

Hanna Prodigy transforms your team's discussions into actionable insights.

Presentation Creator: Hanna can learn your conversations and generate professional PowerPoint presentations. These aren't just simple slideshows; they're comprehensive decks ready for high-stakes meetings or client needs.

Deep Analysis: Input a business situation or challenge, and Hanna will produce an in-depth analysis. This includes examining the situation from multiple perspectives, suggesting appropriate frameworks, and even outlining implementation strategies. It's like having a team of top-tier consultants at your fingertips, available 24/7.

Situation

“A global consulting firm was losing billable hours to time-consuming report creation and analysis”

How Hanna Prodigy helped solve it

Using Hanna Prodigy's Presentation Creator and Deep Analysis features, our client was able to generate client-ready presentations and in-depth analyses in a fraction of the time. This allowed consultants to focus more on high-value client interactions and strategy development.

#4 Live Connection at Your Fingertips

Real-Time Insights for Dynamic Decision-Making

Being up-to-date is crucial. Hanna Prodigy's Live Connection ensures you're always informed. It connects to live financial market data, news feeds, and global events, integrating this real-time information into its analysis and recommendations.

Whether you're making investment decisions, adjusting your marketing strategy, or managing supply chain risks, Hanna provides insights based on the very latest information available.

Situation

“A commodity trading company was missing out on opportunities due to delayed market information”

How Hanna Prodigy helped solve it

Hanna Prodigy's Live Connection feature provided real-time market data and news, allowing our client to make split-second decisions based on the most current information. This resulted in improved trading performance and risk management.

#5 Powerful User Management

Secure, Flexible, and Powerful

Hanna Prodigy understands that different roles within an organization require different access rights and privileges. The user management module provides a robust system for controlling who can access what within the platform.

From administrators with full system access to guests with restricted access rights, you can set up user roles that fit your organizational structure. This ensures that sensitive information remains secure and allows seamless collaboration between teams and departments.

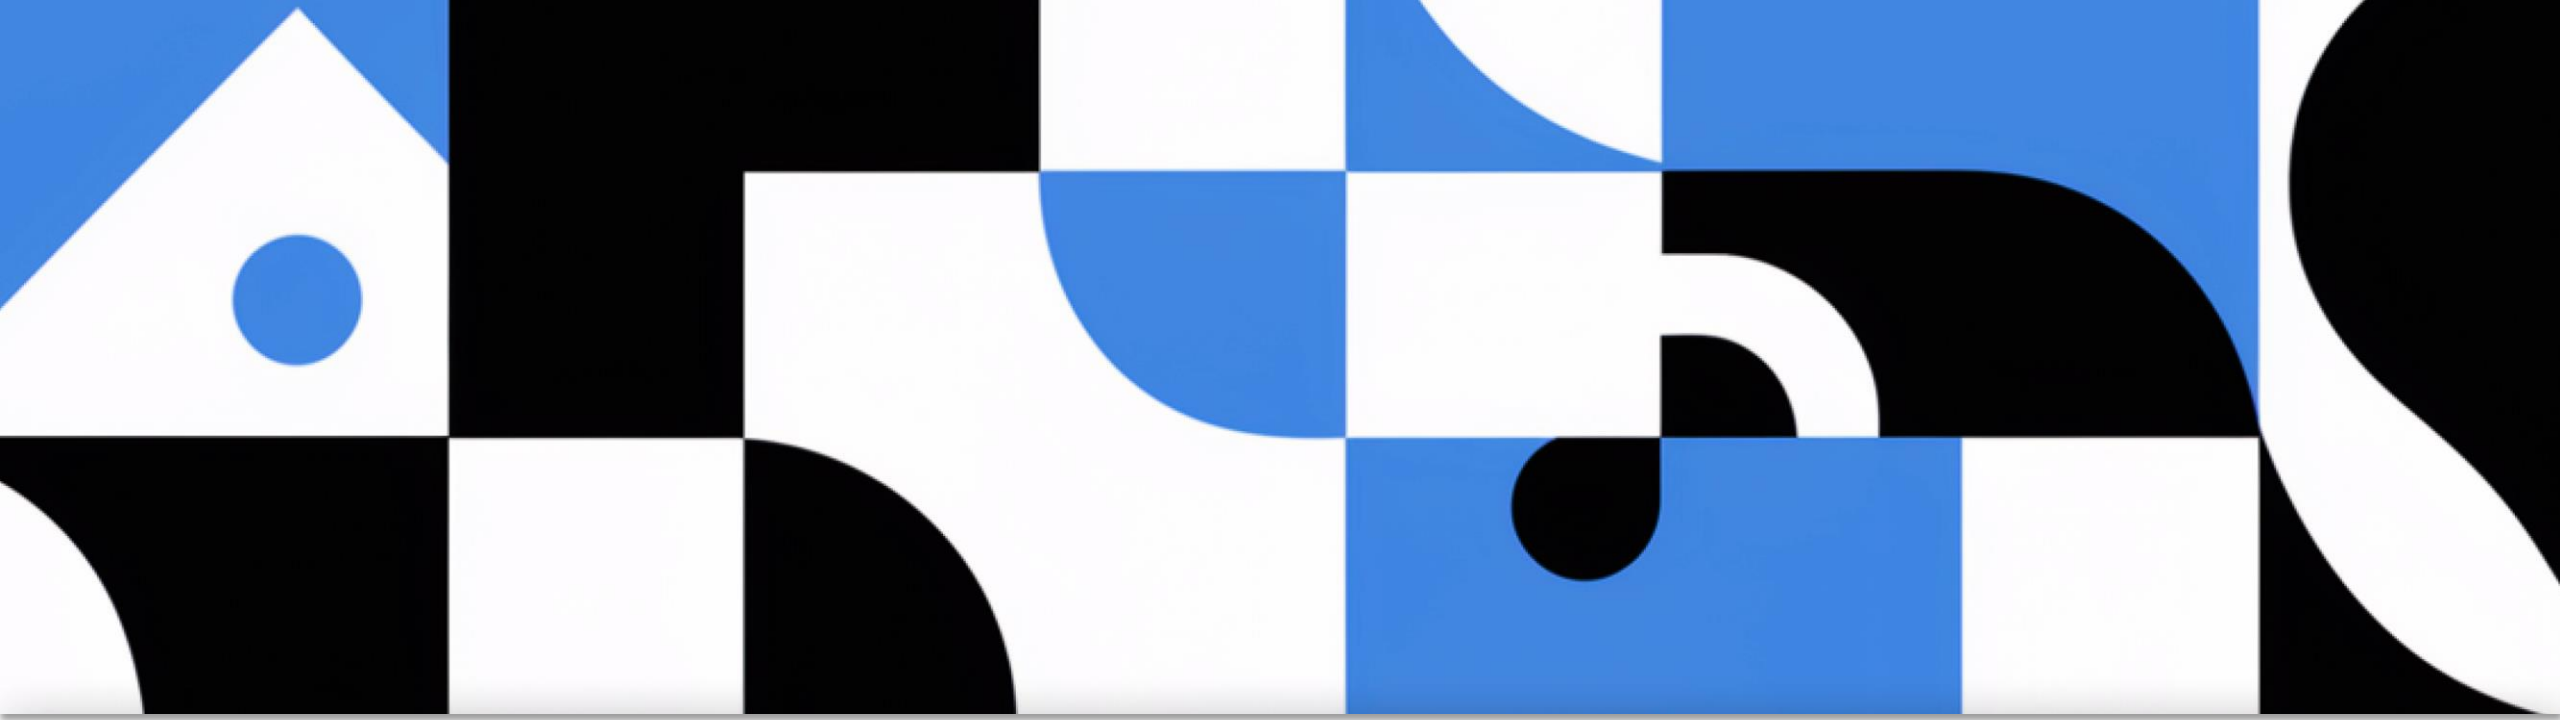

Situation

“A regional bank discovered that its employees were using public AI chatbots on personal phones to ask the AI about company situations after access was blocked on company computers, risking major security breaches and regulatory violations.”

How Hanna Prodigy helped solve it

Hanna Prodigy's Powerful User Management provided a secure, compliant AI alternative. Our client implemented privilege-based access controls, ensuring employees could safely access AI. This maintained data security, regulatory compliance, and operational efficiency while eliminating the use of risky public AI tools.

By combining these functionalities, Hanna Prodigy offers you a comprehensive solution that enhances decision-making, ensures compliance, streamlines operations, and keeps your organization agile, informed, and secure. It's not just an AI assistant; it's a **strategic partner** that grows with your business, adapts to your needs and helps you stay ahead and safe in an ever-changing business landscape.
